I got a game once that was a choice of breaking and entering the bar to fight the bouncer or to pick a fight with... Here's the bar fight scenario: Situation A: The law has to come. This, in turn, means that the might of the law has its full attention on you. Everyone else gets away scot-free. Situation B: No one notices your crime. Because, in my mind, I know the fact that I committed a crime against another human being is the only thing that stops me from doing something else illegal. If I get away with the crime, I can go back and do it again. So, I don't buy games. It's when I see a site I like mention something about a game that I think "hey, that game looks fun." Then I buy it and find it fun. Problem solved.]]> Are we on the air?
